

LIFETIME  **PIERS**

JUST ADD WATER.

LIFETIME ALL SEASONS™ PIER

FOR A LIFETIME ON THE WATER.

ENJOY A MAINTENANCE-FREE PIER YEAR ROUND.

Our piers are known for their durability, and zero-maintenance use. An All Seasons™ Pier stays in the water year round, eliminating the time and cost associated with seasonal installation and removal.

FEATURES:

- Manufactured and installed with long-lasting steel frames
- Above-grade steel posts pile-driven up to 60 feet into lake bed to stand against harsh Midwest climates
- Installation can take place any time of year
- Decking made of post-consumer plastic for durability that looks like wood
- Decking color guaranteed to not fade more than 3%
- Completely customizable, including permanent lifts

All Seasons Pier™ (shown here in winter)
stays in year round

An aerial photograph of a modern, rectangular floating dock made of grey composite decking with white railings. A man and a woman are sitting in blue lounge chairs on the dock, facing each other with a small white table between them. A blue and white striped awning covers part of the dock. In the background, a white boat with a blue cover is moored. The dock has a built-in ladder at one end. The water is dark blue with gentle ripples.

LIFETIME MINIMALIST™ PIER

EVERYTHING YOU NEED. NOTHING YOU DON'T.

SIMPLE AND SOPHISTICATED.

Whether you're looking for the best way to maximize your shoreline, or simply desire a low-profile look, our Minimalist™ Pier is the perfect choice. Crafted with the same durable and maintenance-free materials, this pier offers a streamlined and contemporary design.

FEATURES:

- Seasonally installed and removed
- Compact configuration with ability to add multiple accessories that can affix to patented aluminum frames
- Optional bumpers with cleats
- Decking made of post-consumer plastic for durability that looks like wood
- Decking color guaranteed not to fade more than 3%

LIFETIME CLASSIC™ PIER

A PIER FOR EVERY OCCASION.

TAKE PRIDE IN YOUR PIER.

Enjoy everything your pier has to offer, without the hassle of maintaining it. Our Classic Pier™ has the look of a traditional wood pier that's perfect for amplifying your shoreline. Create a beautifully functional space for gathering, relaxing, and storing everything you'll need for life on the water.

FEATURES:

- Zero-maintenance durability season after season
- Seasonally installed and removed
- Larger configuration, with multiple accessory options that affix to patented aluminum frames
- Decking made of post-consumer plastic for durability that looks like wood
- Decking color guaranteed not to fade more than 3%

YOUR PIER. YOUR WAY.

Create your perfect pier with one or more of our many accessories.

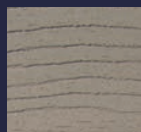

CHOOSE FROM:

- Built-in Boat Lifts
- Deck Boxes
- Stairs
- Rail-less Stairs
- Retractable Shades

BEAUTY IS IN OUR NATURE.

Our decking is as unique as it is strong. We source our fabrication materials from a Midwest company that re-purposes post-consumer plastics, such as detergent jugs and other plastic bottles, to create nearly fade-proof and weather withstanding decking. Designed to look like wood, our piers come with all the beauty and none of the hassle of a traditional wood pier.

MADE LAKE READY.

Our facility, located in Southeast Wisconsin, produces piers and accessories that many homeowners enjoy on the lakes nearby. That's how we know what it takes for a pier to outlast the Midwest seasons, and we're proud of the many properties we've been able to enhance with our beautiful and sustainable piers.

TRUST OUR PIER EXPERTS.

Our experienced team knows how to handle the elements, which means you don't have to wait until warm weather to install your Lifetime All Seasons™ Pier. So, there's no more waiting. We install piers any time of year. We also offer factory direct pricing on all parts to minimize any downtime so we can get you on the water as quickly as possible.
